

Trading e Representações, Lda.

Reference:

TNT 80 NFR

Characteristics & Performances:

Base Structure: Non Woven spunbonded fabrics

Composition: 100% Polypropylene

Width: 160 cm

Roll length: 125 and 50 metros

Weight: 80 gr / m² (aprox.) / Norma DIN EN ISO 2286-2

Finishing: Printable with Latex and UV inks.

Fire Classification: NFR

Applications:

Indoor and outdoor banners, short time campaigns, sports events

Remarks:

- Strong, lightweight and cost effective non woven fabric
- Highly versatile and manufactured to meet the needs of many different industries, ideal for use in many different applications where a lightweight lining fabric is required
- Resistant to moisture and chemical attacks
- The material is harmless to your health and does not pollute the environment, neither in production nor in use
- Spunbonded polypropylene can be easily recycled because it is made from 100% polypropylene
